Reason for decision

Toshiba's basic policy on profit distribution rests on seeking to achieve continuous increases in the actual dividend payments, in line with a payout ratio in the region of 30 percent on a consolidated basis. We have given full consideration to such factors as the strategic investments necessary to secure medium- to long-term growth, the company's performance, the financial position of the Group and our shareholders' expectations, and provisionally decided to pay a year-end dividend of 4 yen per share for shareholders recorded in the shareholder registry on March 31, 2014.
